

Elongated Lettering

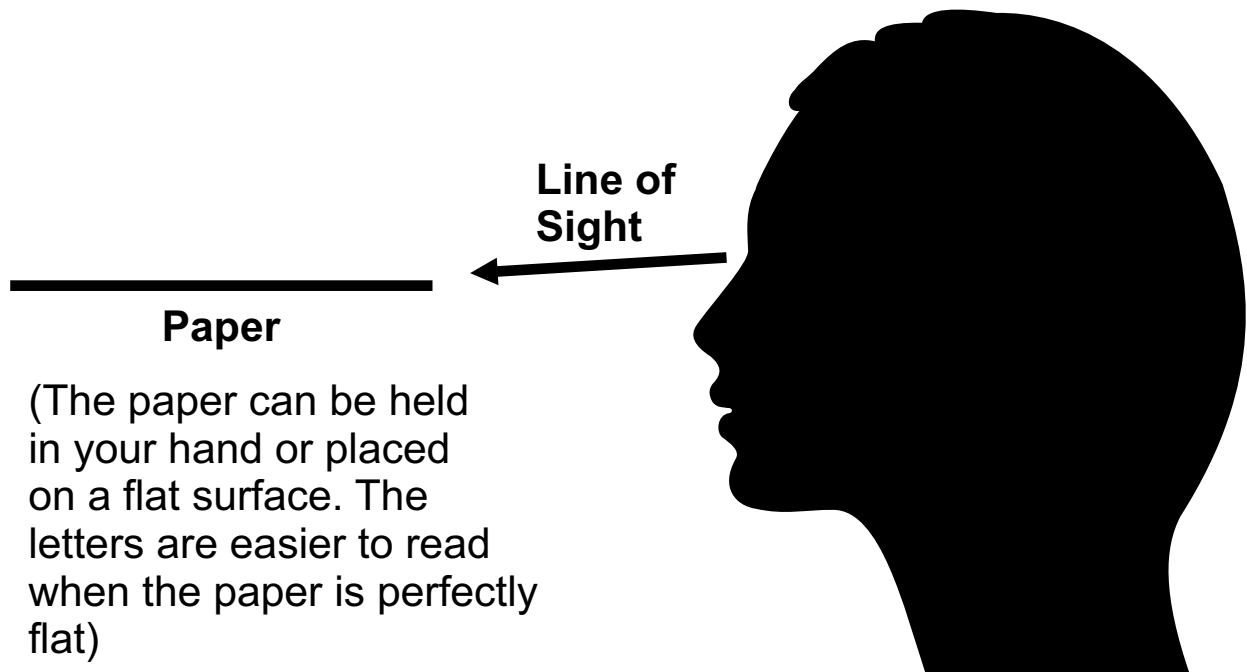

L O N G T H I N L E T T E R S

Horizontal Plane

The first, and most important concept, is this - the elongated letters are designed to be read on a horizontal plane, like sighting down a rifle barrel for lack of a better analogy.

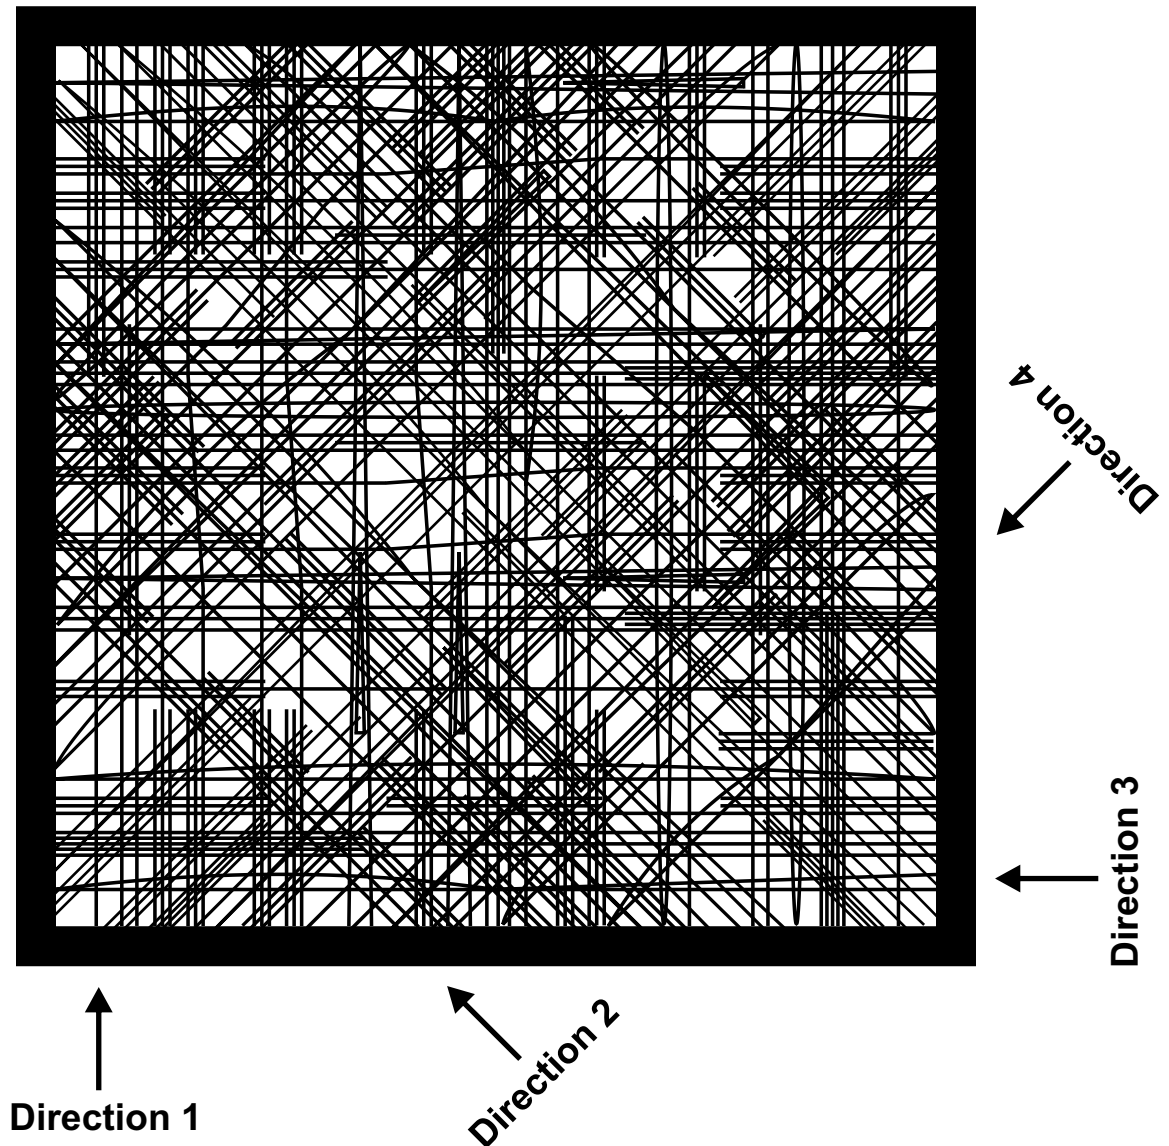

Print the Elongated Lettering (page 1), hold the paper horizontally, and read the letters. They will appear to shrink and become very easy to read.

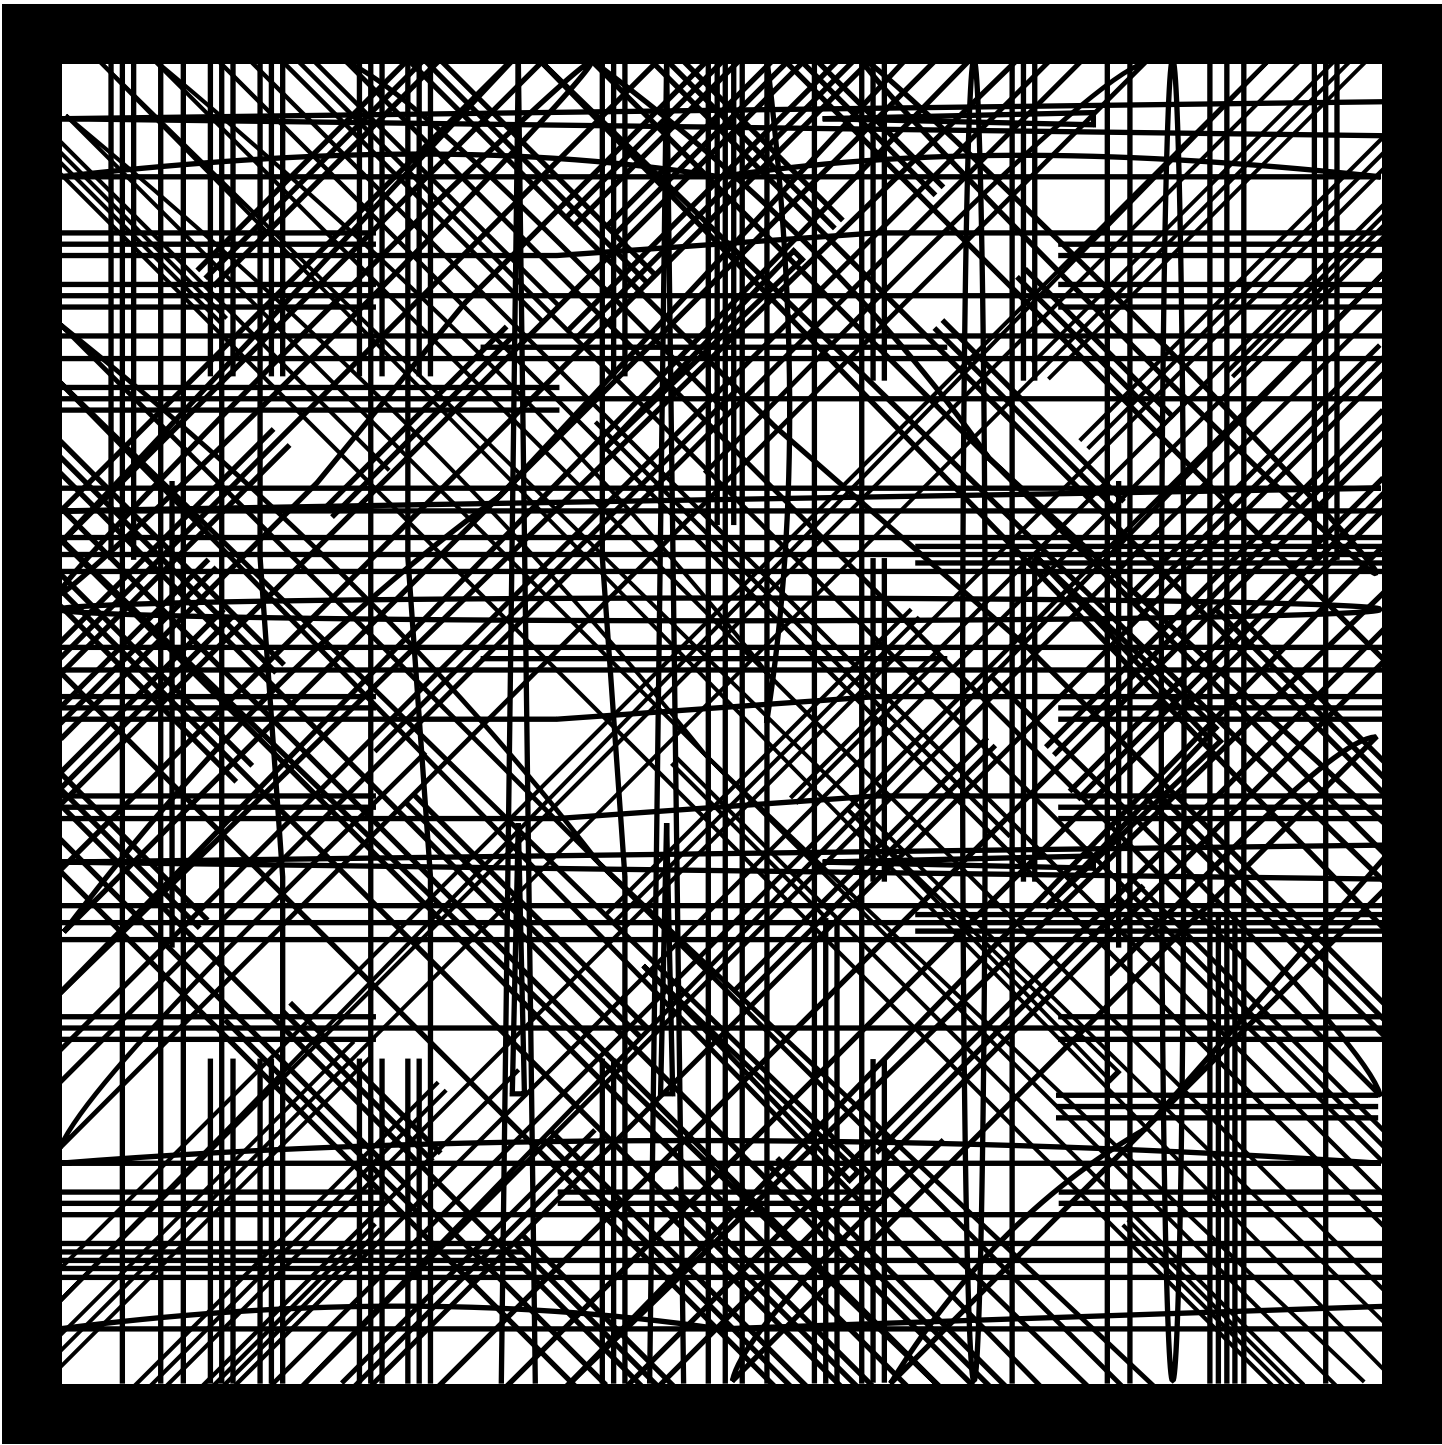

Bar Challenge

Print the Bar Challenge (page 4). Just as you did with the Elongated Lettering (page 1), hold the printed sheet horizontally to read the challenge example. The challenge is designed to be read in **four** directions. When you have completed reading Direction 1 from left to right across the page, rotate the page clockwise 45 degrees and proceed to read Direction 2. When completed, rotate the page clockwise another 45 degrees and read Direction 3. When completed, rotate the page clockwise another 45 degrees and read Direction 4. You're done..
